Dear Faculty Members,

You are the pinnacle of knowledge and diligence who recognize the spark and zeal, equally in each student, moulding their lives with due care.

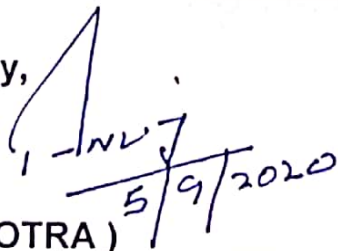

02. Your services are unique and full of welfare gestures, but most importantly, all of you help us become better human beings. There is no denying the fact that you hold a very important place in our lives.

03. Here's cheering for all the teachers who don't let even one dream go unrealized, and continue to serve and educate despite current ongoing pandemic period undeterred.

Thanks for planting the seeds of knowledge.
